

# Document and Folder Stand FoldineX

---

Extremely portable Document Stand with unique X-style folding design with the finest material and appearance

6 selectable incline positions

FoldineX as folder stand

Unique X-style folding design and fine material appearance.

## Ergonomic benefits

- + When you read a document lying on a desk you tend to hunch over the document. This posture brings big strain on the neck and shoulder which in turn may cause pain and possibly worse disease on the longer run. By using FoldineX you are more likely to read documents in a non-hunched position, with your back straight
- + When used in connection with computer work FoldineX can be placed in the ideal ergonomic position between the screen and keyboard, permitting the eyes to scan in a straight line from the keyboard to FoldineX to the screen, thus minimizing sideways movements of the head and eyes.

## Other benefits

- + 6 selectable screen heights
- + FoldineX folds up neatly to size 4.3 x 24 x 1.5/2 cm and is extremely portable
- + Fabric pouch prevents FoldineX from scratching other objects in same briefcase or bag
- + Aluminium alloy material gives finest appearance to FoldineX

## Hints

FoldineX can be used as a stand for laptops, tablets, documents and folders as well as a book rest for Ebooks and printed books (see corresponding web pages)
