

HANDY Forearm Rests for corner desks

Far superior support ergonomically to wrist/palm rests

Ergonomic benefits

- + HANDY Forearm Rests are ergonomically far superior to wrist rests because they give support to the whole Forearm, not only to the wrist.
- + Thanks to the centre hollows of the forearm rests, pregnant women find PC work much more comfortable using Forearm Rests than by needing to stretch out to support their arms on a desk

Other benefits

- + Padding makes the rests more comfortable than hard surfaces.
- + Additional desk space is gained since the rests are not integral with the desktops. HANDY can also be attached to fill desk corners.
- + Quick and easy attachment to desks - no tools necessary.
- + Attachable to all typical desktops, as well as to desks with frames beneath the edges – the attachment bows go under the frame.
- + Forearm Rest Handy is space saving, easy to install and fits to all desks.

Model 12000 further away from the desk corner, attachment with 2 bows.

Model 12000 further away from the desk corner, attachment with 2 bows.

Model 12000 nearer to the desk corner, attachment with 1 bow in the middle.

HANDY Forearm Rests for corner desks

Environment-friendly materials

- + The wooden board used under the padding is made of FSC certified material. The Forest Stewardship Council certificate means that wood has been sourced in an environment-friendly, socially responsible and economically viable manner.
- + The steel of attachment bows is fully recyclable. The powder coating of attachment bows emits zero or near zero VOCs (volatile organic compounds).

Model 12000 nearer to the desk corner, attachment with 1 bow in the middle.

Product codes

- 12000-xx** Forearm Rest HANDY, large, fabric cover
