

# Sit-Stand Chair ReSTand

---

For ergonomic sit-standing

## Ergonomic Benefits

- + Ergonomic saddle-form seat
- + Downward-sloping sides of the seat reduce pressure on legs and allow better circulation
- + Soft seat padding encourages good circulation
- + The seat nose is low to minimize pressure on the genital area
- + Forward seat-tilting comes as standard. The tilting is stepless and lockable in any position
- + The gas-spring height-adjustment is user-selected to best suit personal comfort

## Other benefits

- + The gas spring enables a quick and stepless change between the usual sitting and sit-standing positions
- + Stable – base diameter 60 cm with non-sliding PU glides
- + The high-quality leatherette cover is very durable. For example scratching with a hard object leaves practically no visible trace
- + Very light weight, only 5.8 kg, makes moving easy
- + Well-suited for working by a height-adjustable desk

Seat with red fabric cover
